SSI SAAMP EVENT

SAAPM Event: Denim Patch Fridays

Target Audience: SSI All (Military Personnel/DoD Military)

Event Date/Time: All Day

Location: SSI and 369th BN Area

Description of Event: Staff will be authorized to wear denim patches on this day to show support for survivors of sexual assault. Denim Day began in 1999 in Italy when a Supreme Court of Appeals in Rome overturned a sentence of Rape. One of the reasons the court stated for their decision was, "jeans cannot be removed easily and certainly it is impossible to pull them off if the victim is fighting against her attacker with all her force." As a result of this verdict, in protest, the women of the Italian Parliament protested by wearing jeans to work. This motivated the California State Senate and Assembly to do the same and a movement of support began. Today, Denim day is observed to bring awareness to sexual violence, support survivors and to take a stand against victim blaming.
